

# Proline Promag 53P

## Electromagnetic Flowmeter

**HART**  
COMMUNICATION FOUNDATION

**PROFI**  
**BUS**

Fieldbus  
Foundation

▲ Nominal diameter range:  
DN 15...600

▲ Measuring range:  
0...9'600 m<sup>3</sup>/h

▲ 4-line backlit display  
with touch control

▲ Device in compact or  
remote version

◇ Outputs: 4...20 mA, Relays, Status,  
Pulse / frequency (active/passive)

◇ Quality – software for filling  
and dosing, density,  
electrode cleaning and also  
advanced diagnostics

◇ Dedicated for chemical and process applications with corrosive  
liquids and high medium temperatures (-40...+180°C)

**Max. Measured Error**  
**±0.2%**
