

Liquiphant FTL20H

Vibronic Point level detection

- Compact point level switch for liquids meets the high hygiene standards in the food industry
 - ❖ Measurement is unaffected by conductivity, build-up, turbulence, flows or air bubbles
- CIP and SIP cleanability ensured

Sensor length	64mm (2.52")
Output	AC, DC-PNP, ASi
Temperature	-40 to +150°C
Pressure	-1 to +40bar
Process connection	Threads or process connections for hygiene requirements (Tri-Clamp, dairy coupling, flush mount solutions)
Supply / Communication	19 ... 253V AC 10 ... 35V DC-PNP ASI-Bus
