

Soliphant FTM50

Vibronic Point Level Detection

- ❖ Insensitive to external vibrations and build-up: Maintenance-free operation, independent of bulk solids

Output:

- DC PNP 2-wire
- AC Thyristor
- DPDT relay
- 8/16mA
- NAMUR
- PFM

- ❖ Process connections: threads, flanges and hygienic connection (Tri-Clamp)
- ❖ Temperature: -50 to +280°C
- ❖ Pressure: -1 to +25bar
- ❖ Sensor length: 145mm, 200mm

Specialities:

- ▲ Build-up and corrosion detection
- ▲ Remote version
- ▲ 3 temperature versions available
- ▲ SIL 2
