

Fieldgate FXA520

Gateway For Remote Monitoring And Diagnosis

- Monitoring of HART / 4 to 20mA field devices regardless of location

- XML data transfer allows simple processing of the measured data

- Visualization of up to four HART measured values per device

- Input : 2x 4...20 mA / 2x HART
Up to 16 field devices via Multiplexer

- Power supply: - 85...253 V, 50/60 Hz.
- 20...60 VDC or 20...30 VAC

- Output: Ethernet 10Base-T/100Base-TX,
analog modem, GSM/GPRS depending on
type Web-Server
