

## Ceraphant T PTP31

# Pressure Switch With Metal Sensor Monitoring Absolute And Gauge Pressure

- Quick and flexible process integration thanks to modular connections
- High reproducibility and long-term stability. Function check and information on site thanks to LEDs and digital display
- Versions for use in hygienic applications
- Measuring range: 1bar...400bar

- Supply / Communication: 12...30VDC
- Process temperature: -40°C...100°C
- Process connection: Threads
- Output: 1x PNP switch  
2x PNP switch  
1x PNP switch + 4...20mA analogue

**Accuracy  
0.5%**
