

Thermophant T TTR31

Compact and cost-saving for safe
monitoring of process temperatures

Temperature Switch

- * Process connection: threads, clamp
- * Operating temperature range: 50...150 °C
- * High reproducibility and long-term stability
- * Long-term stable temperature sensor made of platinum
- * Function control and information on-site thanks to LEDs and digital display
- * Auxiliary power supply
12...30 V DC

High
accuracy
