

Oxymax COS41

Dissolved oxygen sensor

- **Measurement range: 0,05 - 20mg/l**
- **Measuring principle:**
Closed (membrane covered) amperometric 2-electrode sensor.
- **Design:**
Extreme stable membrane- Analog communication

- **Process temperature:**
max. 50°C (122°F)
- **Process pressure:**
max. 10bar (145psi)
- **Temperature sensor Integrated:**
NTC-sensor
