

## Z204

# AC/DC voltage to DC current/voltage isolator/converter

Setting via  
DIP-switches (adress, baud rate,  
line termination, input range)  
EASYSETUP (PC Software)

Power Supply: 10..40 Vdc; 19..28 Vac

### Input :

- Direct Voltage Range: 0..1200 Vdc
- Alternate Voltage Range: 0..850 Vac

### Output :

- Voltage 0..10 V
- Current 2 scales: 0/4..20 mA  
(active/passive)

ModBus interface: RS485 - RS232

Accuracy class: 0.5
